

**Offering client-focused  
and integrated mental  
health services**

## Senior Full Service Wellness Program

*Free for Seniors over 60!*

FSA's **Senior Full Service Wellness Program** serves elders over 60 years of age who are underserved and have chronic/severe mental health illness.

FSA's **Senior Full Service Wellness Program** helps the underserved by having a very low client to case worker ratio. There are no medical necessity requirements; we can assist clients' basic financial needs; and we are available 24/7.

SFSW is supported by funds generated by Proposition 63. It is a collaborative partnership with Curry Senior Center, Community Awareness and Treatment Services, Goodwill Industries, the Over 60 Project at UCSF, and the Tom Waddell Health Center.

For more information about the program, please visit our program website at: [www.fsasf-sfsw.org](http://www.fsasf-sfsw.org)

Our clients receive free comprehensive and integrated treatment services, including:

- Mental health treatment
- Substance abuse care
- 24/7 phone support
- Physical health care
- Food, clothing, and shelter assistance
- Transportation
- Educational support
- Vocational training
